OUR HISTORY

Since ancient times, dogs have been an integral part of human life. Dogs have partnered with humans and shared daily struggles and joys with them. Our chews reflect and help to further strengthen this deep bond that has followed humans and their dogs for thousands of years. At Peppy Dog, we therefore believe that dogs are not just pets, but also full members of the family.

OUR VISION

To build an image of the company among dog owners that cares about the welfare of their canine companions while respecting the heritage of European agriculture and the environment.

OUR MISSION

To make our chews widely known and appreciated by dog owners and beloved and happily munched by their furry companions.
